

- Innovation for public administration
- Enhancement of cross-border public e-Services
- Reduction of administrative burdens and costs for businesses

The Once Only Principle

www.toop.eu

PROVIDING DATA ONCE-ONLY

Demonstrating the once-only principle across borders by developing a federated architecture

Three pilot areas:

- cross-border e-services for business mobility
- updating connected company data
- online ship and crew certificates

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 737460.
